

NOTES

1. Shown at 0° tilt, as the head hangs on a plumb 1-1/2 (1.5) in pipe. The left side view and detail A are drawn at their own scale.
2. Tilts up to 15 degrees down; rotates a full 360 degrees (store rating).
3. Holds two screens side by side on one bar. Fits TV mounting-hole patterns (VESA) 55 to 760 mm wide x 65 to 470 mm high (store rating). The TV rails slide along the bar to suit the TV; the rail spacing shown is one setting.
4. Pipe: the NPT pipe adapter (Ø1.940 pipe holes) rests on the stop collar, which carries the 1-1/2 (1.5) NPT internal thread and a 1/4-20 set-screw hole .250 below its top.
5. Rail centre = the mid-length of the TV rails (dash-dot line on the front and side views). TV rail holes and slots: detail A, in mm.
6. Shown with its hardware: 5/16-18 hex bolts with nylon-insert locknuts joining the adapter to the bar; on each TV rail a 1/4-20 carriage bolt with a wing nut (the tilt lock) and a 1/4-20 pan-head screw with a nylon-insert locknut.
