

1. Shown at 0° tilt: TV face horizontal, facing down, as the head hangs on a plumb 1-1/2 (1.5) in pipe.
2. Tilts a full 90 degrees, from vertical to horizontal (store rating). This head only tilts; it can be rotated to the position you need at the time of install (store).
3. Fits TV mounting-hole patterns (VESA) 75 to 200 mm wide x 75 to 200 mm high (store rating). Hole patterns and sizes: bottom view, in mm.
4. Pipe: enters through the Ø1.938 hole in the top of the bracket and threads into the Ø2.125 x 1.000 collar: 1-1/2 (1.5) NPT internal thread; 2X Ø.250 side holes in the collar. The pipe axis passes through the hole-pattern centre (dash-dot lines).
5. Shown with its hardware: 1/4-20 bolts in rivet nuts, on each side the tilt pivot and two tilt locks.
